Librarian's Report to the Trustees

The Library has been very fortunate in that it has received several gifts of books during the year 1936-37.

Mrs. Lackey of Washington, D. C., and Temple, has presented to the Library quite a collection of books, thirty-seven in number, most of which are books for children.

Mrs. Carolyn Bailey Hill has presented to the Library seven new books. All of these are for children and have very fine illustrations which appeal to adults as well as to children.

A short time ago Mrs. Hyde of Washington, D. C., and Temple, sent a copy of "Mutiny on the Bounty." This is a book which many of our people have wanted to read.

Miss Marian Holcomb of Leominster, Mass., has presented to the Library four volumes of "Genealogical and Family History of the State of New Hampshire," which are very interesting. Come in and look up your family's history in this state.

Dr. William Bancroft Hill of Poughkeepsie, N. Y., continues to send to the Library the "Missionary Review of the World," which is a monthly magazine.

There are many interesting and instructive circulars which come to the desk during the year. Some of these have been used by our High School students. More of them could be used if they were brought to the attention of the students and others interested.

Twenty-two books have been added to the Library, bought by the sub-committee from funds appropriated by the Town. This committee expects soon to purchase a few more books. Any suggestions by the readers for new books would be welcomed by the sub-committee.

This year the Library has again borrowed from the Public Library Commission fifty books and has placed them in the school for the use of the children. The Primary children have finished theirs and so this twenty-five have been sent back to Concord. They are looking forward to a new collection. This service gives the children an opportunity to read many fine books, many more than our Library can afford to buy.

Requests for books of non-fiction from the State Library may be made through your local librarian. This is a service which many have availed themselves of in the past. The Library also

has the privilege of borrowing for any individual so desiring books on the Grange and Church reading lists which are not available in our Library.

Respectfully submitted,
MRS. PEARL S. HEMINGWAY
Librarian

Report of School Superintendent

To the School Board and Citizens of Temple:

I respectfully submit my fourteenth annual report as Superintendent of Schools:

Supervision

There has been no major change in the general plan of supervision from that of previous years. The results of the standardized tests are used with more effectiveness as we gain in the understanding of the meaning of test results and methods of utilizing them to improve instruction. The outstanding illustration of this gain the past year is in the fields of Reading and Spelling. When tests showed weakness in the reading skills, and particularly in the knowledge of exact meaning of words, we shifted the emphasis in methods of teaching reading to meet the situation. This weakness carried over also into spelling abilities, and we have made a change in the spelling system, introducing a new type of textbook which is a combination of spelling and word study. These have been in use approximately two months and the improvement in spelling is noticeable already by comparison with work of the preceding months. Standardized tests in the spring and next fall will indicate the extent to which we have overcome the weaknesses, and will point the way to future procedure.

Teachers and Salaries

The surplus of qualified teachers which existed during the years of the depression has very largely disappeared. There is almost a scarcity of good primary teachers and no more than the normal surplus of upper grade teachers. This situation has accelerated the rate at which teachers' salaries are being restored to their former levels, from the reduced salaries that prevailed in the past five years.

Health

Doctor Cayward and Mrs. Cutter made the annual medical inspection in September and examined 33 children. They reported the following list of defects:

	Defects	Corrections made since last examination
Underweight	7	
Defective Teeth	11	2
Diseased Tonsils	12	1
Enlarged Glands	3	4
Skin Disease	2	

Repairs and Improvements

The progressive plan of repairs started a few years ago will require one more year to complete the cycle. Both class rooms, the hallway, and the boys' basement have been redecorated and the girls' basement remains to be done next year with some outside painting and repairs on windows.

Budget

The budget differs very slightly from the one presented a year ago and the assessment required is $3,900 in place of $4,000 estimated last year. We are including as income an estimate of the balance we shall have on hand at the end of the current school year. The exact amount of state aid is not known at the present writing but should be approximately the amount stated in the budget.

Respectfully submitted,
VERNON S. AMES
Superintendent of Schools

Wilton, New Hampshire, February 9, 1937.
